# BOLD COMMUNITY GOALS

In the U.S. today, 13 million children face hunger—that's 1 in 6 .  
Chances are, someone your child goes to school with struggles to get enough to eat.

Just as hunger knows no age, neither does fighting it. We all have a role to play in solving hunger. Children can make a positive difference in the lives of other kids in need when they understand why it is important to help others and why United Way is important to their family. It's important to talk to children about hunger, and inspire them to take action against it.
